

Magazine Spread

Create a full CMYK, 2 page spread utilizing InDesign.

Print out finalized color version to present in folio book by deadline 08.29.07.

Include all preliminary work.

Single page size: 8 wide inches X 10.25 tall inches.

When setting up the document, be sure to establish 3 pages and select “Facing Pages” in your document set-up.

For images, utilize the Corbis disks in the library or your own work.

Be sure to utilize hi-res versions for this project.

The article source must be referenced in your layout.

Show magazine title, publication date, and issue number.

Copy original article to show original version of material in folio book.

Be sure to establish a color scheme created from the available PANTONE Process Uncoated library inside InDesign. Do not utilize the default color swatches.

Print version: 11 X 17 sheet; indicate crop marks and printer’s marks

Approximately five full color images

Utilize one serif and one sans-serif font of your choice.

Utilize a 3-5 column grid format.

Final print product should have no smears, ink loss, smudges.

We will go over formal print production on the second computer lab.
