

# In-Class Demo

The following codes are essential for developing basic HTML-based pages for the web. It is important for you to memorize their individual functions and the order they appear.

## 1. HTML TAGS

```
<html>

<head>
<title> Poem </title>
</head>

<body>

</body>

</html>
```

## 2. TEXT HEADER (headline) TAGS

```
<html>

<head>
<title> Poem </title>
</head>

<body>

<h1>Shel Silverstein</h1>
<h2>Falling Up</h2>
<h3>HarperCollins Publishers</h3>
<h4>(c) 1996 </h4>
<h5>People Zoo</h5>
<h6>page 80</h6>

</body>

</html>
```

## 3. PARAGRAPH TAGS & LINE BREAKS

```
<html>

<head>
<title> Poem </title>
</head>

<body>

<h1>Shel Silverstein</h1>
<h2>Falling Up</h2>
<h3>HarperCollins Publishers</h3>
<h4>(c) 1996 </h4>
<h5>People Zoo</h5>
<h6>page 80</h6>

<p>I got grabbed by the elk and the caribou.<br>
They tied me up with a vine lasso <br>
And whicked me away to Animaloo, <br>
Where they locked me up in the People Zoo.
</p>
```

## 4. TEXT TAGS-part 1 (changing font face)

```
<html>

<head>
<title> Poem </title>
</head>

<body>
<font size="2" face="Arial,Helvetica,sans-serif">

<h1>Shel Silverstein</h1>
<h2>Falling Up</h2>
<h3>HarperCollins Publishers</h3>
<h4>(c) 1996 </h4>
<h5>People Zoo</h5>
<h6>page 80</h6>

<p>I got grabbed by the elk and the caribou.<br>
They tied me up with a vine lasso <br>
And whicked me away to Animaloo, <br>
Where they locked me up in the People Zoo.
</p>

</font>
</body>
</html>
```

---

## 5. TEXT TAGS-part 2 (establishing text embellishments)

```
...
<body>
<font size="2" face="Arial,Helvetica,sans-serif">

<h1>Shel Silverstein</h1>
<h2><em>Falling Up</em></h2>
<h3>HarperCollins Publishers</h3>
<h4> &copy; 1996 </h4>
<h5>People Zoo</h5>
<h6> &bull; page 80</h6>

<p>I got <strong>grabbed </strong>by the elk and the caribou.<br>
They tied me up with a vine lasso <br>
And whicked me away to Animaloo, <br>
Where they locked me up in the People Zoo.
</p>

</font>
...
```
