

In-Class Demo

Creating links to projects from index.html

Requirements:

- 01: Open the backup DW file for index.html and save it on your desktop.
- 02: Open Firefox and locate your published web for the HTML lyric sheet.
- 03: Copy the full ABSOLUTE URL (<http://ds0315.aisites.com/proj2.html>)
- 04: Paste the information in the link field of property inspector.
- 05: Save and upload index.html to student account.
- 06: The new file will overwrite previous version of document.

04.
