Topic:

Key Words:

ITT-Tech Virtual Library

- books

Screen capture and print off two book resources. Which seems a better source? Why?

- periodicals

Screen capture a print off print article on subject. Be sure all bibliography info shows.

- reference resources

Select an encyclopedia entry on your subject and print off results.

Internet

- <http://www.ask.com>

Screen capture and print off one relevant resource site from this search engine

- <http://www.google.com> <use Advanced Search and Key Word features.>

Screen capture and print off one relevant resource site from this search engine.

- <http://www.yahoo.com>

Screen capture and print off one relevant resource site from this search engine.

- <http://dir.yahoo.com/>

Screen capture and print off one relevant resource site from this directory.

- <http://www.wikipedia.org/>

Screen capture and print off one relevant entry from this online encyclopedia.

OBJECTIVES

1. Utilizing the provided table, search the listed resources for information on a topic you are interested in, one which you could possibly write a paper.
2. Be sure to narrow down the broad topic to a smaller, manageable theme. Remember you want to narrow the topic sufficiently so preliminary research will provide strong feedback.
3. Determine what key words would help your searches.
4. If you would rather you can choose from one of the following broad topics:

Richard Feynman	Knee laser surgery
Steroid use by athletes	Osama bin Laden
5. Using the template you created earlier in the course, write a brief report detailing the results you conducted with your searches. Use approximately 100 words.
 - What sites proved more useful? Briefly explain why.
 - What sites were inadequate? Briefly explain why.
6. Screen capture and print off all results.
7. Staple all pages together. (You will be turning in at least 11 sheets.)
