

Research Paper Overview-part 2:

Formally Declare a Topic and Thesis Statement

OBJECTIVES

01. Generate a plausible introduction paragraph utilizing five or more sentences.

As the paper is further developed over time, the thesis can be modified.

However, the topic cannot be changed.

02. Underline your thesis declaration. Remember, such statements do not necessarily have to be placed at the close of the paragraph. Strategies can include placement in the middle of an introduction.

03. These must be typed and presented following MLA style guidelines.

Handwritten thesis statements will not be acceptable.
