Reading Journal || Cisneros

- Based on today's strategies of comparison-contrast situations, provide comparisons of Cisneros' depiction of her father at the beginning of the story with the details of her description at the end of the story. What has changed in her presentation of her father? Quote an example from the conclusion to defend your opinion; explain how the quote works.
- Despite the fact most of the essay details how different Cisneros is from her father, propose how **similar** she is to her father. How do their actions mirror one another?

You are required to respond with an in depth analysis.
