# The Works Cited Page

# *Works Cited Page*

**The works cited page** exists as a listing of references which exist in the body paragraphs of the research paper. *Every entry on this page should reflect a quote or paraphrase used within your paper.* (See *Bedford* p 571-572.)

- The list is set up in alpha-order by last name of author.

- If no author is available, the title of the work itself or the web entry title is used. (Use the first word in the title, other than *A*, *An*, or *The*.)

- *Do not use* the phrase "anonymous" or "unknown"—this is considered *wrong*.

- The proper presentation of each entry is called a *hanging indent*.

# Works Cited Page

**Basic Print Example:**

Johnson, Paul. *The Birth of the Modern: World Society 1815-1830.*

New York: Harper Collins, 1991. Print.

# *Works Cited Page*

- A sample template exists on page 588 in the *Bedford*.

- There are eleven different types of entries here.

- Each type of technology has its own unique presentation to help distinguish the

   different types of resources

- Furthermore, on pages 530-531 of the *Bedford* is displayed a catalog of

different situations which may occur when quoting sources of material.

- Whenever you come across an unique situation, refer back to your book to tell

you what to do.

*Remember to use the book as a resource for building your papers.*

*You will need the book for future English classes, specifically 1302.*
